

# PROPANE FOR AUTOGAS

## We're ready to meet your fuel needs

School districts, municipalities, shuttle operators, cab companies, and fleets across the country are benefiting from the competitive advantages of propane autogas:

- ✓ **Lower Fuel Costs:** Propane autogas typically costs less than gasoline or diesel, which can result in significant savings over time. State and federal tax incentives can further increase savings.
- ✓ **Reduced Maintenance Costs:** Propane autogas is a clean-burning fuel, which can lower the annual maintenance costs of your fleet.
- ✓ **Fewer Emissions:** Propane autogas vehicles are better for the environment than gasoline or diesel models. They emit significantly less carbon monoxide toxins, and smog-producing hydrocarbon emissions. As more cities adopt stricter air pollution laws, propane will continue to meet those tighter restrictions.
- ✓ **Convenient Fueling Options:** On-site propane autogas refueling stations are less expensive to install than natural gas or diesel stations. There are also many public stations in every state for refueling while on route.

We install a variety of on-site refueling stations and can deliver propane autogas daily, weekly or monthly based on your usage.

At Suburban Propane, we're prepared to meet your needs. For a free on-site quote and consultation, call today.

## The Smart Energy Choice

Propane reduces harmful carbon emissions compared with conventional fuels helping you meet Federal and local emissions standards, making it ideal for both indoor and outdoor use.

Consider a few of these propane facts to see if it is the right choice for you:

- Because propane vaporizes rapidly, it won't contaminate soil or groundwater
- Propane emits 60-70% fewer smog producing hydrocarbons than gasoline
- Propane doesn't produce sulfur dioxide, a primary cause of the greenhouse effect

Choose Suburban Propane's 90+ years of reliability and local expertise and join a growing number of locations that are making propane the primary fuel for their business. As your energy partner, you can count on us with:

- Customized plans based on your usage
- Flexible delivery schedule to meet your needs
- Convenient payment options and online account management
- Installation of quality equipment, with an emphasis on safety
