

PROPANE FOR MOWING

Reduce your operating costs with propane-fueled mowers

Landscapers benefit from the competitive advantages of propane-fueled mowers and trimming equipment.

✓ **Lower Operating Expenses:** Propane equipment often requires less maintenance than conventionally fueled mowers and trimmers.

✓ **Easy On-Site Refueling:** Propane increases productivity of your crew by eliminating off-site trips for fill-ups. Using cylinders also eliminates the chance of costly spills.

✓ **Fewer Carbon Emissions:** Propane mowers are significantly better for the environment than gas models — an added benefit for bidding on projects in your community. Plus, as more cities adopt stricter air pollution laws, propane will continue to meet or exceed those tighter restrictions.

✓ **Reliable Equipment & Fuel Supply:** Propane mowers are now available from most top brand companies. Propane is also domestically produced which helps reduce our dependency on foreign fuels.

CALCULATE YOUR FUEL SAVINGS WITH PROPANE.

For an easy-to-use online tool from PERC that does the calculations for you, visit:

The Smart Energy Choice

Propane reduces harmful carbon emissions compared with conventional fuels helping you meet Federal and local emissions standards, making it ideal for both indoor and outdoor use.

Consider a few of these propane facts to see if it is the right choice for you:

- Because propane vaporizes rapidly, it won't contaminate soil or groundwater
- Propane emits 60-70% fewer smog producing hydrocarbons than gasoline
- Propane doesn't produce sulfur dioxide, a primary cause of the greenhouse effect

Choose Suburban Propane's 90+ years of reliability and local expertise and join a growing number of locations that are making propane the primary fuel for their business. As your energy partner, you can count on us with:

- Customized plans based on your usage
- Flexible delivery schedule to meet your needs
- Convenient payment options and online account management
- Installation of quality equipment, with an emphasis on safety
