## The Smart Energy Choice

Propane reduces harmful carbon emissions compared with conventional fuels helping you meet Federal and local emissions standards, making it ideal for both indoor and outdoor use.

Consider a few of these propane facts to see if it is the right choice for you:

- Because propane vaporizes rapidly, it won't contaminate soil or groundwater
- Propane emits 60-70% fewer smog producing hydrocarbons than gasoline
- Propane doesn't produce sulfur dioxide, a primary cause of the greenhouse effect

Choose Suburban Propane's 90+ years of reliability and local expertise and join a growing number of locations that are making propane the primary fuel for their business. As your energy partner, you can count on us with:

- Customized plans based on your usage
- Flexible delivery schedule to meet your needs
- Convenient payment options and online account management
- Installation of quality equipment, with an emphasis on safety
